

Humate Granules

FERTILISER GROUP 3
Reg. No. M343, Act 36 of 1974

Andermatt Madumbi's Humate Granules, extracted from ancient granule Leonardite deposits, allows for easy combination with granular fertiliser applications.

Application Instructions:

As part of granular planting blend

- Apply 5 - 10 kg/ha of Humate Granules.
- Alternatively, apply in conjunction with normal fertiliser blend applications (5% of fertiliser blend).

Storage and handling:

- Keep dry.
