

**WE'RE HIRING...**

## **BioSpecialist**

### **Join the team that champions change.**

Andermatt Madumbi (Pty) Ltd, is a subsidiary of the global Andermatt Group, and market leaders in scientifically developed biological and biostimulant solutions, driving sustainable growth, for all. Our mission is to cultivate trusted relationships with our stakeholders through the delivery of quality solutions and exceptional technical support to our growers. Biologicals have an essential role in food production to ensure 'Healthy Food and Healthy Environment, for all'.

### **VACANCY: BIOSPECIALIST**

The key role of the BioSpecialist is to market biological solutions and provide exceptional technical support to our distribution partners and growers in the field. Expert crop, root, pest and disease knowledge is essential for IPM integration.

#### **Key competencies required:**

- ✓ Minimum BSc Agricultural Degree with with majors in either Horticulture, Plant Pathology, Entomology or Agronomy
- ✓ Croplife SA certification on the Basic Crop Protection Course
- ✓ Technical marketing and sales experience in the South African agricultural industry
- ✓ Exceptional ability to influence and lead change in existing Integrated Crop Protection Management Programs
- ✓ Experience with biological solutions is an advantage
- ✓ Performance driven and influential with a culture of self-discipline, integrity and excellence

To apply, please send your 2-page CV and motivation letter to [hr@andermatt.co.za](mailto:hr@andermatt.co.za), Closing date for applications: **6<sup>th</sup> September 2024**
